

APPLICATIONS

Eni ASP C 32 is a mineral oil suitable for the lubrication of pneumatic hammers and small air tools operating at low temperature.

The particular formulation guarantees excellent oiliness and hence a strong lubricant film, **Eni ASP C 32** can absorb a small quantities of water without losing their lubricating properties..

CHARACTERISTICS

Properties	Method	Unit	Typical
Appearance	ASTM E2680	-	clear liquid
Density at 15°C	ASTM D 4052	kg/m ³	870
Viscosity at 40°C	ASTM D 445	mm ² /s	32
Viscosity Index	ASTM D 2270	-	126
Flash point COC	ASTM D 92	°C	200
Pour point	ASTM D 5950	°C	-12
